GORAL BHATT

Healthcare Market Research & Data Analyst | Clinical Research | Program & Strategy Analysis
Dallas, TX | (412) 905-9023 | mehtagoral2530@gmail.com | linkedin.com/in/goralbhatt301098

SUMMARY

Healthcare market research and data analyst with 3+ years of experience supporting U.S. medical device and pharmaceutical intelligence through competitive intelligence, primary and secondary research, data cleaning, ASP analysis, Excel trackers, dashboarding and stakeholder reporting. Managed market intelligence deliverables for 3 healthcare clients per month, maintained 5 client-facing trackers, and synthesized FDA, ECRI, AccessGUDID, Medline and McKesson data into decision-ready insights. Strong fit for clinical research analyst/assistant, healthcare data/business analyst, program analyst and nonprofit strategy roles requiring structured research, GCP-aware documentation and cross-functional execution.

CORE SKILLS

Research & Healthcare: Medical Devices, Pharmaceuticals, Clinical Research Support, GCP, Secondary Research, Primary Research, KOL Outreach, Competitive Intelligence, Market Sizing
Data & Tools: Microsoft Excel, SQL, Pivot Tables, Lookup Functions, Data Cleaning, Data Validation, ASP Analysis, Dashboarding, Tracker Development, FDA, ECRI, AccessGUDID
Business & Program: Stakeholder Reporting, Client Queries, Documentation, Process Training, Lead Generation, Program Tracking, Presentation Development, Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

GlobalData Plc | Analyst / Associate Analyst, Healthcare Market Intelligence **Hyderabad, India | Oct 2021 - Nov 2024**

- Managed monthly market-intelligence deliverables for 3 healthcare clients across U.S. medical-device markets, converting product, pricing and competitor data into decision-ready Excel outputs and written insights.
- Built and maintained 5 client-facing company trackers across orthopedic and cardiovascular markets, monitoring product availability, ASP/pricing signals, FDA activity, competitor movement and market coverage gaps.
- Cleaned, validated and analyzed large market datasets using Excel models, pivot tables, lookup functions and structured QA checks, improving accuracy and usability of client-facing deliverables.
- Synthesized data from FDA, ECRI, AccessGUDID, Medline, McKesson and vendor databases to assess market size, product coverage, pricing dynamics and competitor positioning.
- Extracted and consolidated product/company-level data from AccessGUDID and regulatory/vendor sources to support product benchmarking, portfolio comparisons and healthcare market landscape reviews.
- Responded to client data queries and refined outputs based on feedback, ensuring deliverables met standards for accuracy, clarity, source traceability and business relevance.
- Trained and onboarded 2-4 analysts on secondary research workflows, tracker maintenance, data-cleaning processes, source documentation and market analysis methods.

Mellalta Meets | Business Development Intern, Pharma Market Research **Delhi, India / Remote | Dec 2020 - Jul 2021**

- Conducted 3 primary research calls with KOLs in the breast cancer biosimilar space for a major pharmaceutical client, capturing competitive, clinical and market-access insights for opportunity assessment.
- Researched biosimilar pipelines, therapeutic-area activity, competitor positioning and stakeholder landscapes to support client-focused competitive intelligence and business development planning.
- Generated 5-6 qualified leads per month through targeted account research, stakeholder identification, outreach follow-up and organized pipeline tracking.
- Maintained prospect and follow-up trackers documenting contact status, next steps and relationship history, improving visibility into pipeline progression and outreach priorities.

WATAIR ENVISOL GROUP | Intern **Ahmedabad, India | Jun 2019 - Jul 2019**

- Supported QA/QC activities for industrial wastewater testing in a regulated laboratory, following SOPs, documentation controls and approved testing protocols.
- Applied GCP-aligned documentation practices to record samples, observations and testing activities with attention to traceability, compliance and data completeness.
- Coordinated with laboratory staff to organize testing inputs, maintain process discipline and support timely completion of assigned analyses.

CSIR India / CSMCRI | Summer Research Intern **Bhavnagar, India | Jun 2017 - Jul 2017**

- Completed molecular biology and plant tissue-culture training with exposure to DNA/RNA extraction, media preparation, aseptic technique and basic research workflows.
- Assisted with microbial and plant-media experiments using titration and chemical assays, strengthening understanding of laboratory methods and scientific documentation.
- Maintained experiment notes and followed SOPs/lab safety practices within a national research institution, reinforcing regulated research fundamentals.

EDUCATION

Amity University Rajasthan, Jaipur | Integrated B.Tech + M.Tech in Biotechnology 2016 - 2021
Minor Degree in Food Technology 2016 - 2020
